Right - you're right; I forgot. Let's see what Maryland says about whether they've spoken with the Permasease company. If they haven't, I'm thinking that one of us should make a call to the company before the Wednesday release. We'll know more shortly. Thanks!

I am waiting for final decision regarding Permasease? Are we leaving it as is or not mentioning its name in the report?  
Thuy

Ok, no worries! I think the comms folks pretty much take things from here. Are your memos signed yet, or are you waiting until Wednesday? Checking.

Kimberly

I accepted the invite for this afternoon communication meeting (3:30PM-4:00PM). But I have to leave at 4:00PM sharp, to take my husband to his appointment with his general doctor at 4:30PM.

Thanks

Thuy

Good call. Also, let me know if you need me to sit in on any conversations with Michal since our OPP general isn't happening this week.

During our meeting this afternoon, let's ask if MDA has contacted Permasease. We may garner more questions if we don't name the product by it shows up in the report. Thanks again.

I like this solution, Thuy and Shamus.

Shamus

Unlike with Permanone, I did not have any contact with the manufacturer of Permasease.  
Maybe we should replace Permasease with "another mosquito control product from MDA"?  
Thuy

Thanks Kimberly and Thuy – please let me know if I can tell Michal we can include both product names.

Do the PermaSease folks know we tested their product, too? I know you've been in touch with the Permanone folks.

Hi Kimberly – Do you know of any concerns or limitation do we have with mentioning the two brand names? The Pesticide in Packaging webpage has had "Permanone 30-30" by name but it has not mentioned "PermaSease 30-30." Has there been contact with the manufacturers so they know what is coming? Also, no word yet from MD comms which this will also be a topic. Thanks!

My only comment is after you say that none of the MD products were a problem, the document then makes it sound like in fact one of the MD products was a problem – because Anvil isn't mentioned. **Ex. 5 Deliberative Process (DP)**

Hi Michal – below is the listserv announcing the PFAS oily matrix. We'd issue this after the call w/ MD on 9/29 and also give regions/AAPCO SFIREG a heads up. Thanks.
